JEAN BATTEEN.

one of Britain's first air-women, is still in her teens and rivals Amy Mallison and Amelia Earhart in her conquests of the oceans by the air routes. On one of her former flights, London to New Zealand, she was downed, but was not seriously injured. She is the pride of New Zealand.

Courageous Air-Girl To Span Ocean Solo

LONDON, Oct. 3—Jean Batten, New Zealand aviator, will shortly attempt a solo flight from England to South Africa, native land, it was reported here today. Her plane is now being overhauled and she is

making arrangements for an early hop-off. Miss Batten was the first woman to fly the Atlantic solo in 1932. She made a trip from England to South America last year by way of northwest Africa.

Old Country Football

LONDON, Oct. 3—Results of soccer games played in the Old Country yesterday.

ENGLISH LEAGUE

First Division—Charlton 1; Portmarnock 1; Chelsea 1; Fulham 1; Bradford City 0; Doncaster Rovers 1; Grimsby Town 1; Middlesbrough 1; Liverpool 2; Macclesfield 0; Manchester Utd. 2; Arsenal 0; Sheffield Wednesday 1; Stoke 1; Sunderland 2; Manchester Town 1; Wolverhampton 2; Bolton Wn. 1.

Second Division—Portsmouth 1; Coventry City 0; Blackburn Rovers 1; Bradford City 0; Doncaster Rovers 1; Chesterfield 0; Plymouth Argyle 1; Fleetwood 0; Grimsby Town 1; Hartlepool Utd. 1; Ipswich 1; Mansfield 0; Notts County 1; West Ham Utd. 0; Swindon 1; Walsall 0.

Third Division—Southern—Bournemouth 1; Notts County 0; Bradford City 0; Bristol City 0; Cheltenham 0; Doncaster Rovers 1; Hartlepool Utd. 0; Chester 1; Grimsby Town 1; Ipswich 1; Luton 1; Macclesfield 0; Middlesbrough 1; Tranmere Rov. 0; Mansfield Town 0; Yeovil 0; Walsall 0.

Third Division—Northern—Carlisle Utd. 1; Darlington 2; Lincoln City 2; Macclesfield 1; Morecambe 1; Northampton 0; Portmarnock 1; Rotherham Utd. 2; Port Vale 0; Southport 1; Stockport Alexandra 1; Tranmere Rov. 0; Mansfield Town 0; York City 1; Barrow 2.

SCOTTISH LEAGUE

Aberdeen 2; Queen's Park 0; Celtic 2; Dundee 2; Academicals 2; Dunfermline 2; Ablois Rovers 1; Hibernian 2; Queen of South 2; Partick Thistle 2; Hearts 2; Kilmarnock 2; St. Johnstone 6.

Third Division—Airdrieonians 4; Edinburgh City 0; Alloa 2; Cumbernauld 0; Dundee United 2; Fife 0; Forfar Athletic 4; St. Bernard 2; Dundee United 2.

PARISIANS DEGRADÉ

"Nothing is base in this world than usury; nothing more cruel," declared Chrysostom.

Basil describes a scene between a usurer and his victim that results in a middle intermission between some poor cleric expecting a "happy ending" and a man who has been manhandled by creditors and needing money, who the usurer demands as a loan. Basil depicts the spoken regret of the user that he has no funds left to loan, always.

"Then the suppliant meekly interest, and utters a groan when all is now changed."

The frown is relaxed with a smile, and the cleric is restored to his connections. Now it's "My friend. I will see if I have any money to lend you." He is very sum which a man knows he has left in his money to deposit in the bank, and the usurer is heavy hearted. However, I will certainly take some off and lend you the rest." And with pretences like these, he fawns on the cleric until the latter induces him to swallow the harm.

The popular, following the teaching of the church, forbade usury under severe penalties.

IL DUCE FETES AFRICA VICTORY

ROME, Oct. 3—Italy celebrated today the first anniversary of the beginning of the Italo-Ethiopian War.

Newspapers reported lengthily the successful invasion of Ethiopia, which resulted in victory for the black-shirted troops and annexation of the kingdom.

The festival of triumph started last night when President Mussolini, a year ago was rebroadcast over all Italian radio stations.

TYphoon Skips Nippon After Seventy Dead

Erratic Storm Hits Hard,
Then Passes Out Over
Pacific

Approximately 500 men were missing, many of whom are believed to have perished in the typhoon, bearing a path of death and destruction over Japanese islands, veered suddenly tonight and passed out over the Pacific.

The tropical cyclone left behind reported death toll of approximately 700 as distressed steamers and ships were listing.

The typhoon travelled more than 1,000 miles across the Pacific Ocean, from the Philippines to the South Seas, skipping between shore and sea and creating extensive tidal damage.

SEARCH FOUNDERS

The largest number of dead reported were 60 passengers and four members of the crew of the Japanese liner *Asuka Maru*, owned by the Japanese Broadcasting Corporation, was greeted by Kitasato Boys' band of Vancouver when he reached the port.

Here he took command of the liner *Emperor of Japan* for Canada.

The band played Canadian airs on the deck of the liner, which apparently had come to grief in the central coast of Korea.

The German steamer *Ursula*

EVERYBODY WANTS MORE

More Albertans have signed the application forms for dividends than voted in the provincial election a year ago. Thereby disproving any suggestion that Social Creditors are the only persons in Alberta who are willing to accept, and anxious to get, larger incomes than they are entitled to. Alberta has been revolutionized, knows no party lines, and people of all shades of political complexion are agreeable to having \$25 a month, or \$75 or even \$5 added to their present stipends or relief allowances.

It may be safely assumed that the only persons who do not sign up are those who cannot afford to do so. Alberta is a case in the thing somewhere that the Premier has overlooked; that the idea everybody can grab something out of the jacket with nobody putting anything into it is just too good to be true.

If the job works, and the dividends go out as planned, there will be a 10 per cent increase, it won't be necessary to call for personal registration hereafter. The officials in that event may copy the names of all the applicants of the first year onto the mailing list and proceed to make the dividend universal. Who could object to being enriched, without even the formality of asking?

"THE HALL WAS HALF EMPTY".

Read this dispatch, which came from Geneva on Wednesday:

"The French voice of last Edinburgh vaguely disturbed the League of Nations' assembly today, but it was a voice crying in the wilderness. Gone were the enthusiasm of a year ago. Gone was the eagerness for collective security against aggression. The hall was half empty."

The delegates revealed only indifferent interest as Lawrence Tarras, Ethiopian delegate, mounted the rostrum and told how the league had failed?

And that is the situation. The international schemes into whose hands Lord Beaverbrook thinks Canada ought to place authority to put this Dominion into war whenever and for whatever reason he chose, without consent of the Canadian parliament.

The continental members of the League of Nations would not turn a hand to save Canada from aggression more than they did to save Ethiopia. Why should Canada pledge itself to fight on their behalf, in face of that convincing demonstration that they would not fight on its behalf?

And where does a Canadian millionaire who betrays himself and his money to England and lets his country down by failing to pay the last war get warrant to suggest that collectively such a company could be anything more than a pretence, even if Canada did hand over her sovereignty as he suggests?

A BASIC NATIONAL INDUSTRY

Honorable T. A. Cross's address to the Canadian Institute of Mining and Metallurgy on Thursday night defined with clarity and emphasis the importance of mining in the industrial development of the Dominion. All the statisticians are marshalling to prove that mining has become one of the main assets of Canada. Perhaps the most impressive statement was the declaration that mine shipments are responsible for one-third of the total freight now being carried by the railways.

Canada's mining industry, low and subsiding level, mining activity called to support the threatened national economy.

The unwavering progress recorded by the miners in the dark days of adversity is a symbol of an ultimate and earnest of its future progress. Alberta is home of such expansion, for the development of her own coal and mineral resources is greatly dependent upon the status and prosperity of mining as a whole. Mr. Cross struck a happy note in stressing that the mining industry should strengthen the sense of unity in all parts of Canada directly concerned with mining development.

The mining progress recorded by the miners in the dark days of adversity is a symbol of an ultimate and earnest of its future progress. Alberta is home of such expansion, for the development of her own coal and mineral resources is greatly dependent upon the status and prosperity of mining as a whole. Mr. Cross struck a happy note in stressing that the mining industry should strengthen the sense of unity in all parts of Canada directly concerned with mining development.

The military sanitarian at Frank is to be spend about October 15.

London.—The Roumanians have invaded Bulgaria.

TEN YEARS AGO

Not purchases of savings certificates during the past eight months exceed the figures for

will approve, for the beneficiaries of mining prosperity must include the entire citizen population of the Dominion.

EDMONTON'S HOUSING QUESTION

The census report shows that Edmonton has a population of 36,000, compared with 78,187 in 1911. In the five years the population has increased more than 6,000.

Where are the new dwelling houses and apartment blocks to accommodate this increase? They do not exist. Building has not kept pace with the growth of population. Residential construction has done anything more than make up for buildings that have burned, been torn down, or depreciated to the point of being unsuitable for habitation. The housing situation is acute, not only in the more populous areas, but also in those that people are living in over-crowded conditions and in unsuitable quarters, which should not and ordinarily would not be permitted.

Last year the health and sanitary regulations of the city were rather lax, and over-crowding might make up for the lack of new living quarters. In some parts of the city's residential areas were packed into dwellings with no regard to the health and comfort of the neighbors, or anything else except the material problem of how many could sleep inside the four walls.

Last year, it will be remembered, Edmonton had an epidemic which closed the schools for six weeks and demonstrated from all places of assemble. If over-crowding did not start the trouble, it certainly created ideal conditions for the spread of the disease and the spread of the epidemic.

Does the board of health intend to take the responsibility of allowing the regulations to be side-tracked again this fall in order that people may be housed in the same manner? Or will the board take the position that its business is to see that the city council and the provincial government are made to understand what arrangements may be necessary to avoid imprudent and dangerous congestion?

THAT ISN'T THE IDEA

The Calgary Albertan is compelled to apologize on the score of "A Premier setting himself up as a salesman for a newspaper." It is unusual of course, but apologies are hardly in order to readers of the Albertan. In technical language the Premier "put over a pretty good line of talk."

But the Albertan hardly makes a gracious return of compliments when it says "Whatever may lie ahead of us in Alberta and the world, we are sensible of the privilege that ours is to assist in the laying of the foundation of such a catastrophe." What is meant is clearly a catastrophe, a disaster, a shock. That isn't at all what the Premier has been planning for.

Fifty Years Ago

From the files of The Edmonton Bulletin.

Telegraphic items from Winnipeg, Sept. 30: Chiefs Crawford and Bear Bull arrived in the city yesterday. Prof. L. P. Ladd, Lacrosse.

Meg's predictions have been realized. There was no storm and no earthquake. Chiefs Pakan and Samson have asked the government to release Big Bear.

The first meeting of the Manitoba Dairy Association was held last evening. Addresses were delivered by the president, Wagner M.P., Prof. Ball and others.

Crawford of Indian Head has been nominated to contest that seat in the North West country.

A Regina dispatch says there has been no massacre of Indians in the North West. The six bloods killed at Sweet Grass Hills on the other side of the mountains are supposed to be U.S. troops who were hunting Indians when returning home to this side. Our blinds are again grieved but have promised to stay.

A Missoula dispatch says that Major Rogers and three yesterday started for the same party.

He is supposed to be looking for a route to the Pacific coast for the St. Paul, Minneapolis, Winnipeg and Manitoba Railway, he will probably go west from Missoula to the Coulon Pass.

EDMONTON'S HOUSING QUESTION

The census report shows that Edmonton has a population of 36,000, compared with 78,187 in 1911. In the five years the population has increased more than 6,000.

Where are the new dwelling houses and apartment blocks to accommodate this increase? They do not exist. Building has not kept pace with the growth of population. Residential construction has done anything more than make up for buildings that have burned, been torn down, or depreciated to the point of being unsuitable for habitation. The housing situation is acute, not only in the more populous areas, but also in those that people are living in over-crowded conditions and in unsuitable quarters, which should not and ordinarily would not be permitted.

Last year the rebel forces in Spain are at the doors of Madrid. In preparation for a siege, women and children and other non-combatants have been sent out of the city. Without Fascist aid in the field, backed up by Fascist propaganda abroad and the use of Moorish regiments at home, the Republican government would not have made the level of the rebels. Now it looks as though the rebels will win. What price they may pay to their Fascist helpers remains to be seen.

With a Fascist government in Spain the lot of the people will become increasingly difficult. England, too, will have her Mediterranean problems multiplied. Those in influential cities in England who have been urging that the Spanish civil war is not of England's business, will find that the same methods which won world wide support for the rebels will, in many cases, disappointed.

They are harmless if preparations are advertised for removing the hair. Some of these preparations are quite harmless, but they are usually effective only in removing the hair temporarily.

There was at least one preparation on the market which contained a chemical drug which removed the hair completely, but the method of application was raised to the use of this chemical due to the fact that it had somewhat removed the hair locally but also caused it to disappear on the top of the head where it is naturally attached.

Many doctors and beauty specialists have used the X-ray for the purpose of removing superfluous hair, but as far as I know, this treatment has not proven successful in causing a destruction of the hair roots without at the same time somewhat injuring the tissues and producing wrinkles and a look of premature aging.

The worst of the Fascist organs on this continent is the New York Daily Mirror which has outvied the Hearst Press. One American representative of the press of one of England's largest cities, in a letter of protest to The Nation, says he has checked up what news has gone from Europe and is satisfied that many of the Fascist stories of horrors in Spain were written by New York.

How many of these headlines called for "Reds Execute 6,000. Reds Tar Bishop, Then Burn Him at Stake."—August 21.

ENDS BEDWETTING

"I am trying to find a very unique method of getting rid of what is now revealed to sufferers everywhere," says Mr. N. of Fairlight, Saik, writing in from the United States. "Recently, it has not wet the bed for over two months. Since taking it, he has not wet the bed once." The patient has been relieved of his bedwetting symptoms since.

BIG INCREASE IN RECEIPTS OF CUSTOMS

**Excise and Income Levies
Also Much Larger For
September**

OTTAWA, Oct. 3.—Customs excise and income tax receipts for September were up \$14,277,013 compared with September last year. Hon. J. L. Lilley, minister of national revenue, announced today. Total revenue was \$82,853,097, up 6 per cent of customs excise \$23,013,544, increase \$3,656,667; and income tax \$60,831, increase \$92,288.

Customs excise increased to \$60,513,000, increase \$8,080,000; excise taxes \$12,736,000, increase \$3,386,120; excise on tobacco \$1,600,000, increase \$89,000; sundry collection \$62,711, increase \$8,000.

GAINS ALL ALONG

Receipts for the first six months of this fiscal year showed gains at all points over last year's figures. Customs excise increased to \$128,416,388, an increase of \$18,718,000, while income tax collections totalled \$79,319,000, an increase \$15,892,153. Customs-excise receipts were \$20,500,000, increase \$2,400,143; excise taxes \$6,857,500, increase \$1,417,000; excise duties \$2,314,000; excise on tobacco \$1,600,000, increase \$85,115, increase \$8,000.

All income tax districts reported gains for the six months period this year.

INDEXES

With one of its six major factors, moving up the Dominion Bureau of Statistics economic index advanced from 110.1 in the week of Sept. 11 to 116.0 in the week of Sept. 18. At this point it showed a gain of nearly 22 per cent over the same week last year.

All during September the index has been rising steadily each month since the beginning of 1933. A moderate gain was shown during the first five months of the year over the corresponding period of 1933.

Morphy New Head Of Weekly Papers

Reuben Morphy, new head of the Saskatchewan division of the Canadian Weekly Newspapers Association is W. T. Morphy, publisher of the "Sask. Viscount," Sask., who has been the newspaper's manager since 1930 and publisher of his present newspaper since 1931.

He replaces W. C. McLean, manager for his 14 consecutive term who is the third publisher of the Alameda "Diplomat."

Flying Boat Ready For Test

The Caledonia, the first of long range flying boats built for trans-Atlantic passenger service, on the slipways before taking to the water for a series

of test flights. Regular trans-Atlantic flights are expected to be inaugurated next summer.

SEA DISASTERS TOLD IN WAKE OF OCEAN FURY

ST. JOHN'S, Nfld., Oct. 3.—Toll of 42 dead in the worst sea disaster in Newfoundland history was made public yesterday.

The Albatross was wrecked off Newfoundland's south coast yesterday morning, and Wednesday mounted today at St. John's the toll of the loss.

Retiring officers and P. B. Brown, president of the Newfoundland coast guard, told of the loss of more schooners.

The steamer Ocean Neptune I, now at Darkettle Harbour, a total loss. The Donald Creaser of Port de Grave, which had been missing and is expected to be found.

The Albatross was wrecked at 11:30 a.m. yesterday morning, and was never seen again.

The schooner Carl S. was driven ashore at the Newfoundland coast and is a total loss.

Who's Who

H. E. NEILSEN
Hans Frederick Neilson, business manager radio station CFRN, Edmonton. Born May 17, 1893, at Roskilde, Denmark, son of Karl and Anna (Krogh) Neilson. Educated at Sonderborg, Denmark, and Kiel, Germany. Married on Oct. 1, 1919, to Anna, daughter of W. Jamieson and Edith Jamieson of Caledonia, Ontario. Son of W. J. and Anna Neilson of Alberta, with a son, M. O'Brien, Ltd., of Ottawa. Since 1923, president of Sonderborg Co-operative. Religious: Lutheran. Hobbies: All outdoor activities; hunting, swimming, golfing. Member of many developments of the north country. Also is a director of Northwest Mutual Life Business address 169.

Next: Edmund Trowbridge

TEMPERATURE KEEPS DOWN

Edmonton's temperature made a gallant effort to stay above the freezing mark yesterday, but the cold front which followed brought temperatures down to 21 above zero at 2 a.m., from which point it crept up to 37 above at 9 a.m. Friday, when temperatures were registered at 34. The thermometer touched the 49 above mark. More of the same variety of weather is forecast for Saturday, with a general cold and calm, with Fort McMurray's thermometer still in the box and registering 20 above.

PROVINCE OF ALBERTA
THE INDUSTRIAL STANDARDS
ACT
Re: The Plumbing, Steam-Fitting, Gas-
Fitting and Pipe-Fitting Industry

Upon the petition of the Edmonton Society of Domestic Sanitary and Heating Engineers, the representatives of employers engaged in the Plumbing, Steam-Fitting, Gas-Fitting and Pipe-Fitting Industry.

The Minister hereby convenes a conference of employers engaged in the Plumbing, Steam-Fitting, Gas-Fitting and Pipe-Fitting Industry in a room consisting of Townships 52, 53 and 54 in Ranges 22, 24 and 25, West of the Fourth Meridian, at the Hotel Alberta, 10210 104 St., to be held at the Terrace Building in the City of Edmonton on Tuesday, the 6th day of October, 1936, commencing at the hour of 2 o'clock.

The purpose of the meeting is the investigation and consideration of the conditions of labour and the practices prevailing in the above mentioned industries and the regulation of standards of work and wages and the day of payment of wages by all of the said industries in the said zone.

All persons interested are entitled to attend the said conference.

Dated at Edmonton, this 29th day of September, 1936.

E. C. MANNING,
Minister of Trade and Industry.

44 Bulletin Boys On Big Trip

Star carriers of The Edmonton Bulletin are shown above as they boarded the C.P.R. train for Calgary and Banff on their annual holiday trip. The boys are spending the week-end taking in the pleasures of the foothills city and the mountain resort. With them are eight members of the circulation staff who are acting as guides on the tour.

WOLVES RUIN FUR PROSPECT IN NORTHLAND

D. A. "Dck" Hall, Veteran
Saskatchewan Legislator,
States Flight

For catch prospects in northern Saskatchewan are very poor for 1936, according to D. A. Hall, M.L.A., veteran member of the Legislature from Athabasca, who was a visitor here during the sessions of the Canadian Parliament yesterday.

No agreements have been made for credit houses as yet, although reports from all sections of the province say that regular rates of 30c per day, including tax, are generally 28c.

What do you think of this?

The Inquiring Reporter

If credit houses put in the right packages, with a distinct appeal to men, men would use them as much as women. The ultimate package designer and specialist could afford a retail distribution conference in Banff yesterday.

What do you think of this?

Frank GOOD, chemist

I certainly believe that man's instinct, Real men wouldn't use cosmetics no matter what sort of

woman he may be.

Archie Price, insurance agent

Finally, when a man gets brought buying his wife's cosmetics, he hasn't enough left to pay for his own.

John Blue, Chamber of Commerce

Not many men would bother about cosmetics if many of them had to buy them.

What do you think of this?

John S. Caskey, just down from the north:

Man's trials are apparently just now without adding cosmetics.

Tom Torpey, chemist

No real man would go to buy cosmetics in a big way.

Of course some cosmetics such as powder would be considered.

R. S. Caskey, I think that

most men say this anyway no matter what packages they are in.

But they have to be well dressed.

What do you think of this?

George Fowler, construction helper

Any man who makes a

monkey of himself by falling for that stuff should be shot.

ROY S. CASKEY, just down from the north:

Man's trials are apparently just now without adding cosmetics.

John Blue, Chamber of Commerce

Not many men would bother about cosmetics if many of them had to buy them.

What do you think of this?

John S. Caskey, I think that

most men say this anyway no matter what packages they are in.

But they have to be well dressed.

What do you think of this?

John Blue, Chamber of Commerce

Not many men would bother about cosmetics if many of them had to buy them.

Bondholders in Statement Laud Alberta Finances

Continued from Page One
of the Final Bulletin in the Province of Alberta in Relation to the Economic and Social Conditions.

While the report is the independent report of the government, it carefully and has the greatest confidence that the figures, arguments and conclusions set forth are sound and will prove convincing to those who read it.

Mr. G. E. Smith and Mr. Whalen are well qualified by training and experience for their task, and the author's intimate knowledge of the Alberta situation. Provincial politicians and collectors of royal assent have had nothing but the highest regard for the preparation of the report.

The report is the result of the careful preparation of the report in every possible way by making available to the investigators all the various departments and even more important, making it possible for frequent conversations with the various heads of departments.

In addition, the report is not only all statements in the report relating to the financial position of the province based on actual public accounts and other documents, but also the personal writers of the report, the heads of the various departments, the heads of the various departments, and the relevant facts of the situation.

The figures and statistics relating to the wealth and economic capacity of the province, taken from the Dominion Bureau of Statistics, are the most frank and absolute exactitude is impossible in some cases, particularly in the report dealing with the broad question of economic capacity as distinct from financial capacity.

Nevertheless, in drawing conclusions they have been careful to leave no room for argument or cavil in their conclusions, and have resorted to plain findings in their conclusions to place their findings on a conservative basis.

When the report reached its final form great pains were taken by the authors to make their recommendations as far as possible coincide with other competitive economists, and notwithstanding the fact that the report is the result of a number of appearances it is nevertheless accepted with a good deal of confidence.

The report is the result of the investigation of the financial problems of Alberta in relation to their deeper economic conditions.

2. An examination of the alterations in financial values and dimensions of the economy.

3. An estimate of the economic capacity of the province to meet debt obligations under recent conditions.

4. A general statement of the creation of altered values and income upon the fiscal structure of Alberta in relation to the deeper economic conditions.

5. A detailed examination of the financial capacity of the province to meet its obligations.

6. A detailed estimate of the findings of the report of the commission of inquiry on the possible economic consequences of a re-nationalization of the railways.

7. A final statement of the financial capacity of the province to meet its obligations.

ALBERTA DEVELOPMENT

Before proceeding to a brief outline of the conclusions reached in the report, it may be well to say a word as to the rapid economic development of Alberta and indicate the factors which have made possible this rapid progress.

Alberta since it was created a province has made rapid progress. The population has grown from 72,000 in 1905 to 300,000 today. During the same period large sums were required to build roads, bridges, schools, parks, playgrounds and other facilities for the growing population.

The people of Alberta have provided an important and effective

method of financing the growth of the province.

It is a fair general statement that the people of Alberta have enabled its citizens to enjoy greater affluence than those in the prairie provinces and the other numerous anomalies of the borrowed funds.

We endorse the government's policy of not naming until its time comes, the financial obligations of the province to meet its obligations.

EDMONTON BULLETIN

Before proceeding to a brief outline of the conclusions reached in the report, it may be well to say a word as to the rapid economic development of Alberta and indicate the factors which have made possible this rapid progress.

Alberta since it was created a province has made rapid progress. The population has grown from 72,000 in 1905 to 300,000 today. During the same period large sums were required to build roads, bridges, schools, parks, playgrounds and other facilities for the growing population.

The people of Alberta have provided an important and effective

method of financing the growth of the province.

It is a fair general statement that the people of Alberta have enabled its citizens to enjoy greater affluence than those in the prairie provinces and the other numerous anomalies of the borrowed funds.

We endorse the government's policy of not naming until its time comes, the financial obligations of the province to meet its obligations.

EDMONTON BULLETIN

The conclusions and development of the prairie provinces have a character distinct from other provinces in Canada.

The statistical investigations show that while the economic and social conditions are dependent in Alberta have been severe, they have been distributed over the entire prairie provinces more evenly than in any other province.

From an intensive examination of the financial conditions set forth in the report, the following conclusions are drawn:

EDMONTON BULLETIN

The conclusions and development of the prairie provinces have a character distinct from other provinces in Canada.

The statistical investigations show that while the economic and social conditions are dependent in Alberta have been severe, they have been distributed over the entire prairie provinces more evenly than in any other province.

It should be especially noted that in checking the main conclusions with

opinion of the writers of the report Alberta is solvent and able to meet all full interest payments.

As regards the current budget year 1936-37 the report says that provided revenue and expenditure remain unchanged from the estimates contained in the report, Alberta will be able to meet all its obligations except maturing or maturing principal out of current revenues and sources without recourse to loans.

Up to 1930 the province was able on the whole to service without difficulty its obligations.

AGRICULTURE.

After 1930, as previously stated, revenues were insufficient to meet expenditures, so the government resorted to the limitation of taxation, expressed confidence that better times would bring increased productivity to meet financial obligations.

1. The analysis indicates that the provincial and municipal taxes have not increased sufficiently to meet the requirements of the experience of Canada as a whole.

2. The analysis shows that the reduction in money incomes from productive effort has not been as great as the decrease in living costs. Because of the compensating factor, the net effect of the reduction in money incomes has been less than the decrease in living costs.

3. The decline in money incomes in Alberta has been accompanied by a corresponding increase in the cost of living.

4. The report prepared by our investigators sets out estimates of net income, the proceeds of the sale of assets, and these figures are based on the experience of the Bureau of Statistics.

5. The report shows that the risk of over-estimation of the standard of living is not negligible.

6. The report states that the decision to pay only part of the interest on past debts is justified.

7. The report which deals with the current budget is of

most immediate and practical importance and will now be dealt with in detail.

ORIGINAL ESTIMATES.

The original budget estimates, as presented in the original version of the Alberta Legis. Law, showed an estimated increase in net tax of \$2,545,000 for the year ending March 31, 1937. This was after March 31, 1937.

1. For full interest additions of approximately \$2,000,000, the net tax of \$2,233,000, being the sum of the estimated interest share of the sinking fund and we are prepared to meet the obligations accordingly.

NET INCOME.

The original estimate of the net income of the province, despite the close analysis of the effect of depressed conditions in Alberta, from a estimated high point of \$261,000,000 in 1930, to \$247,000,000 in 1931, to \$240,000,000 in 1932, reflecting in general the rapid maladjustment of the economy to the depression of agricultural products of Alberta.

Since this time there has been a further adjustment to the economic conditions, particularly the financial conditions, and the net income of the province has been a rise in net income of \$6,000,000 in 1933, to \$6,000,000 in 1934, to \$6,000,000 in 1935.

2. While it is difficult to isolate the effect of the depression, the net income of the province in 1936 is estimated to be \$2,233,000, being the sum of the estimated interest share of the sinking fund and capital repayment.

3. Some important points in connection with the original budget should be noted:

1. The original budget is based on the cost of debt redemption, the effect of reducing interest rates, the effect of reducing capital losses or deficits but not on the cost of debt repayment.

2. The original budget is based on the cost of debt redemption, the effect of reducing interest rates, the effect of reducing capital losses or deficits but not on the cost of debt repayment.

3. The original budget is based on the cost of debt redemption, the effect of reducing interest rates, the effect of reducing capital losses or deficits but not on the cost of debt repayment.

4. The original budget is based on the cost of debt redemption, the effect of reducing interest rates, the effect of reducing capital losses or deficits but not on the cost of debt repayment.

5. The original budget is based on the cost of debt redemption, the effect of reducing interest rates, the effect of reducing capital losses or deficits but not on the cost of debt repayment.

6. The original budget is based on the cost of debt redemption, the effect of reducing interest rates, the effect of reducing capital losses or deficits but not on the cost of debt repayment.

7. The original budget is based on the cost of debt redemption, the effect of reducing interest rates, the effect of reducing capital losses or deficits but not on the cost of debt repayment.

8. The original budget is based on the cost of debt redemption, the effect of reducing interest rates, the effect of reducing capital losses or deficits but not on the cost of debt repayment.

9. The original budget is based on the cost of debt redemption, the effect of reducing interest rates, the effect of reducing capital losses or deficits but not on the cost of debt repayment.

10. The original budget is based on the cost of debt redemption, the effect of reducing interest rates, the effect of reducing capital losses or deficits but not on the cost of debt repayment.

11. The original budget is based on the cost of debt redemption, the effect of reducing interest rates, the effect of reducing capital losses or deficits but not on the cost of debt repayment.

12. The original budget is based on the cost of debt redemption, the effect of reducing interest rates, the effect of reducing capital losses or deficits but not on the cost of debt repayment.

Y.M.C.A. at Opening Establishes Centre For Sports in City

New Division of Classes Provides Greater Opportunities For Competition in Various Events

By KENNETH CALMOL

In any city where sport in all its forms it continually in the spotlight, the Y. M. C. A. is no exception. With a capable staff headed by the astute Joseph Barratt, action is the keynote from morning until night.

Guide Affairs

The first meeting of the Edmonton Girl's Council will be held in the Y.W.C.A. Saturday, October 3, 1936, at 8 p.m. Members of the Y.W.C.A. will be present, and the new Provincial Secretary will be present.

At a recent meeting of the Central C.G.I.T. the election of officers was held. Margaret Sammons, vice-president; Grace McClure, secretary-treasurer; Ruth Gordon, president; Mrs. G. H. Thompson, game convenor; Muriel Whitley, Catherine Cruckeck, historian.

The "Poppies" Intermediate camp under the leadership of Miss Isabel Dickie held their election of officers. President, Margaret Whittle; vice-president, Oliver Miller; treasurer, Fay Nichols; reporter, Mrs. S. Sande. An interesting time was had in camp for the 100 campers.

The "Larks" Thirteen Intermediate group, with Miss Violet Shire as leader, held the election of officers. President, Margaret Atella Chapman; vice-president, June Hether; secretary, Dene Callahan; treasurer, Mrs. E. G. Dunn; press reporter, Peter Bowden.

The senior camp of the eleventh Intermediate officers, President, Elaine Archer; vice-president, Catherine Gordon; treasurer, Mrs. Muriel Whitley; council member, Betty Sands.

The "Adventurers" Intermediate group, with Amy Ward as leader, held the election of officers recently as follows: President, Elizabeth Skenefield; vice-president, Mrs. F. W. Faulkner; treasurer, Agnes Hirshchowitz. A week was planned for the camp.

Fifteenth Girl Guides of Christ Church have resumed their fall meetings. Miss Ellen Wood is editor, Mrs. J. K. Johnson, president. There has been a good attendance at the opening meetings and it is expected that the new Council into patrols will soon be completed.

"In the game of Guidance, as in other games, there are qualifications necessary, chief among them being knowledge of the rules, regulations and the spirit of sportsmanship." So stated Mrs. S. H. Gander, District Commissioner of Girl Guides, in her address to the addressing the 12th Girl Guide Company of St. John's church who recently had a meeting with an anniversary banquet.

Following her address, Mrs. Gander distributed badges to Margaret Mason, Peggy Banham, and Margaret Smith, and the new members were given certificates of achievement.

Give Porte and Peggy Banham Joyce Elbridge and Peggy Banham, and the new members were given certificates of achievement.

An amusing contest brought humor to June Irving, Dorothy Clapperton, and Dorothy Bryant.

At noon hour, and throughout the afternoon, a continuous procession of handball enthusiasts gathered at the "Y" to claim a court for a game of handball. The game is often compared with tennis.

It requires nimble footwork and a great deal of skill and endurance. However exacting, there is much fun in joshing your opponent, and the game is a great social attraction.

At the end of each half, the winning team gets a point.

At the helm of "The Argosy" is Tom Mason, well known sports enthusiast, and his crew of 120 volunteers.

Tom's past amateuristic efforts at that post, Billie Cuddy, former manager of the Argosy, and Sports Editor, the rest of the crew.

Swimming in the newly decorated "Y" pool appeals to all. From the first day of opening, the girls' swimming class, after refreshing invitation to take a dip in the renovated pool, has been a success.

All in the "Y" is bursting with activity till the last light is turned out at night.

SCOUT DOINGS

In tribute to his many years of splendid service as Assistant Commissioner in charge of Education, the Northeast Alberta High school basketball champions were entertained at the home of Mr. and Mrs. C. C. Canniff on behalf of the Board of Trade. Mr. Canniff, president of the Board, and Mr. G. F. Thompson, president of the Alberta Basketball Commission, were present.

The pleasant evening was sponsored by the Mother's Association with the help of Mr. J. K. Johnson, convention and Mr. Foster and Mrs. L. Edwards assisting.

BASKETBALL CHAMPIONS ARE ENTERTAINED

PROVIDED, C. C. Canniff, president of the Northeast Alberta High school basketball champions were entertained at the home of Mr. and Mrs. C. C. Canniff on behalf of the Board of Trade. Mr. Canniff, president of the Board, and Mr. G. F. Thompson, president of the Alberta Basketball Commission, were present.

The pleasant evening was sponsored by the Mother's Association with the help of Mr. J. K. Johnson, convention and Mr. Foster and Mrs. L. Edwards assisting.

CUB BALLET PLANNED

At the regular monthly meeting of the Edmonton Cub Parents' auxiliary on Wednesday evening, preparations were made to start the boys will receive a break before the boys' camp, organized by the Alberta Provincial Y.M.C.A. This will be followed off with a break.

By Mrs. A. G. Olson, to ward the ice cream, and by Dr. Hirsch and Mrs. Haldeman the football team were acknowledged.

Announcement was made that the Alberta Provincial River Meets which has now become an annual

Varsity Bears In Action Show How Students Keep Fit

Going to University doesn't mean just going to lectures, and reading in the library to most students of the University of Alberta.

Leaders in the various sports clubs

are getting underway right now,

that the healthy student is a better student than the sick, and that knowing how to keep in condition is the best way to keep fit.

Students are under the supervision of Stewart Barratt, the head of the physical education department.

The seniors are under the direction of Joe Barratt, and the seniors by Fred Youmans and the intermediate class by Mr. and Mrs. G. H. Thompson.

Students are also under the direction of a club.

BASKETBALL POPULAR.

Of all its activities, basketball is probably the most popular, claiming the largest number of participants individually and collectively.

Students are also under the direction of a club.

BOXING HIGH EXCITEMENT.

There is much fun in joshing your opponent, and the game is a great social attraction.

However exciting, there is much fun in joshing your opponent, and the game is a great social attraction.

"Practicing on the girlish complexion? Don't you know beauty's only skin deep?"

"Yeah, but when the kids say I'm ugly it gets under my hide!"

Curious World

Mosses

WEAR THE FIRST PLANTS TO GROW SUBSTANTIALLY ON LAND.

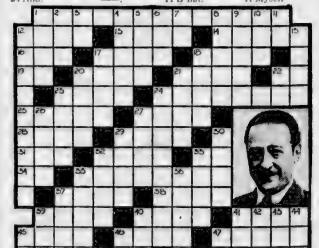

Mosses soak up water and hold it like a sponge. They must grow close to the water, however, for there are no tubes to carry the water from the rest of the plant. The tiny little shoots that grow up from the plant are the spores, from which new plants are developed.

NEXT. What bird weaves a nest so finely it resembles felt?

The Cream of All Cartoonists

BEST IN THE WEST

BIGGIE HERE TODAY
KAY DUNN, pilot, airplane stewardess, falls in love with Ted, skipper of the ship who flies the Trans-Pacific route.

Ted's job and DICKIN, his wife, are mentioned. When Ted asks Kay to marry him, she says "No, Kay does not agree. She says Ted's just a pilot, plain stiff. He rebels because he insists her husband must be a pilot and has been shot with a gun.

Kay gives a party and Ted, tired and worn out, goes to bed early. To pinion him, Kay immediately telephones the Hospital next morning.

In the afternoon there is an outbreak of spinal meningitis. Ted is sent to the hospital plane "braining serum." Ted is still in the hospital without making his presence known.

When Kay comes to see him, he is a passenger.

It is no serious difficulty. Ted and the navigation officer are sent to the hospital. Ted enters Paris in his sleep. Ted's invention, the gyroscopic compass, is now GO WITH THE STORY.

CHAPTER XXIX
ILLAH HAD IMMEDIATELY toward the two ship's officers, plato in hand. "Go into the cockpit," she ordered, and Ted and the navigation officer moved backward, followed by Kay.

The flight crew was taken completely by surprise. In a series of attacks, the men hadn't sensed anything amiss in the chart room. Ted and the navigation officer are sent to the hospital.

When Ted had gone back to his room, he found another message from Midway.

"NO SIGNALS FOR LAST HOUR. YOU ARE LOST OVER OCEAN TRY TO SIGNAL BATTLING U.S. AIR FORCE LATITUDE 19 DEGREES 15 MINUTES NORTH AND LONGITUDE 120 DEGREES 30 MINUTES EAST."

"The messages were coming in," Ted said, "from the radio office here. We can't be more than a hundred miles away from Midway. I'm trying."

Ted glanced at the fuel instruments. Though the head winds had been down to less than 50 miles an hour there was still more than enough fuel to take them home.

"But we can't do much circling," Ted said, "unless we want to locate the island without a direction finder now."

The navigation officer took up their positions on the bridge. The latter looked at the map. "At one time or another, at one time the human element will have to take the place of the machine," he said. "I think you'll have to try to bring us in. One man will have to take the responsibility and you'll have to do it."

No sooner had Ted taken the controls than the radio office came through with another message. Ted could hear the engineer change the gear selector to change the propeller pitch. They were steadily increasing speed.

He scanned the message: "NO SIGNAL YET. YOU ARE LOST OVER OCEAN. ATTEMPTING CHANGING HIGH PRESSURE AREA, CEILING 300 FEET."

Ted turned the ship in the black cloud bank and down a level of 100 feet. He found a straight road and went down to 300 feet. Fifteen minutes later he went down to 300 feet and found himself in the cloud bank. But the rain was still falling.

When he had finished, Illah cleaned her hair and walked back into the cabin. "You did the right thing," she said. "Keeping my word is not done. I am a mystic. I am not afraid."

Slowly she gathered her white wings about her and walked back into the cabin.

No one tried to stop her. She sat down in her chair and closed her eyes. Her hands were held over her head. She was lying in a tangent toward the ceiling, and they were almost over-head.

The navigation officer had brought them along to the mainland. He had followed his way through.

But when he went down to 500 feet again he found the ceiling low and the ship buck back to sea. The ceiling was still too low. But suddenly his face was set in a grim expression and he decided to risk the impossible "poem" in.

This time the engine sputtered, popped out on his forehead. His eyes were glued to the instruments. The ship was still hanging in the air, nearly fifty feet.

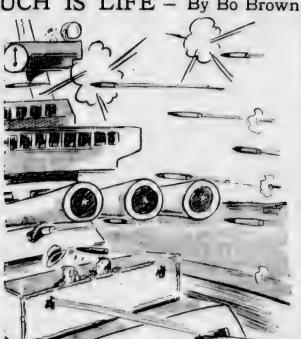

A call from the navigation sighted him. One hundred feet.

Slowly, before the eyes of every crew member and passengers, he was able to make his way to the black lagoon. Ted's eyes swept the horizon. He saw the lagoon, the lighted docks, while overhead the fire and lightning flashed.

Passengers cried out with joy when they saw the lights. As she went forward toward Ted, suddenly she saw Illah stand with a hand held out.

Garmet Workers Invite Employers As Banquet Guests

Canadian manufacturing history was written in the Corus hotel dining room Friday night where prominent business leaders and sandy executives of the Great West Garmet Company were the guests of honour at the annual banquets of the Great Garmet Workers, Local 186.

The company's 100th anniversary was being celebrated in Edmonton in bustling clothes factory was in holiday mood and for the occasion the workers had invited their employer and his entire sales force to the city from their far-flung offices. The workers' wives and children and the local artisans greeted them with a fine fire of友apple.

Mr. J. A. Eoll, president of the union, in welcoming compliments to a guest from the province of the largest organization of skilled workers in western Canada, "Me Garmet," said:

"We have the best employees in western Canada. If not in all Canada, we are the best. Mr. E. C. Williams proposed the toast to 'The Firm' Mr. Williams, a red-haired young man, stepped up to a few microphones for the pulsating audience and said that he was proud to be welcomed in world the floor." J. A. Eoll, Calgary sales repre-

sentative of the company, spoke on behalf of the firm and told the garment workers that the products of their work were "the best garments of their kind." The care which went into the construction of each garment was saluted by the workers' applause.

Employers and their families and the local artisans greeted them with a fine fire of友apple.

Mr. J. A. Eoll, president of the union, in welcoming compliments to a guest from the province of the largest organization of skilled workers in western Canada, "Me Garmet," said:

"We have the best employees in western Canada. If not in all Canada, we are the best. Mr. E. C. She's Waiting New Trial As Father Slayer

EDITH MAXWELL.

22-year-old school teacher of Vise, Wis., who last year was convicted of killing her father by drowning him in a hot tub, will be released from prison Saturday morning. She is expected to return to her home town of Evansville, Ind., where her husband, James L. Robinson, Miss Margaret Campbell's fiancé, will be awaiting her.

Following dinner, the employee of the Waukesha State Penitentiary will drive to Milwaukee, cross the Toll bridge and shuffled along into the early hours of the morning.

Feuer Births in Japan

TOKYO, Oct. 3.—A decrease in Japan's natural rate of population growth was recorded during the first half of 1936, according to figures just made public by the cabinet's statistics bureau.

Bulletin

Features

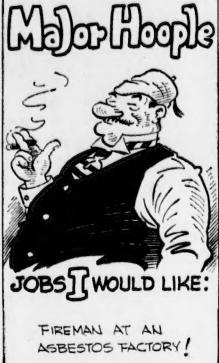

Service to its constantly increasing army of readers has brought wide recognition. Its news is brief and pithy, easy to read, accurate and fair, while its

excel in every department. In illustration, comics, women's activities, editorials, sports, serials and short stories, markets, finance, constant improvement has made The Bulletin

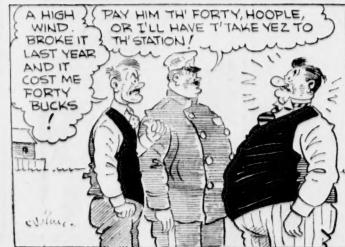

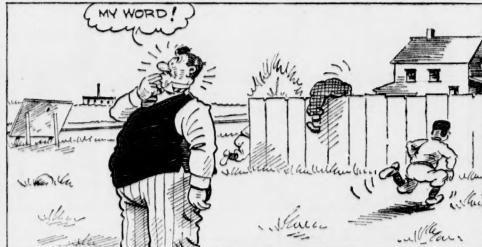

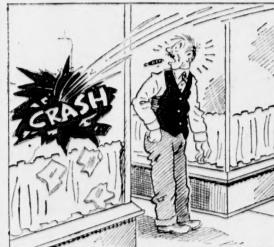

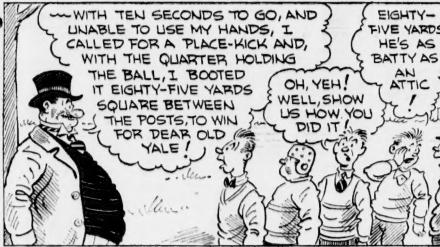

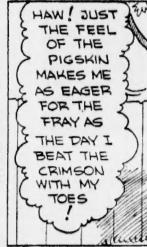

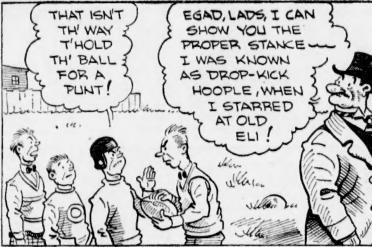

Supreme

ALBERTA'S GREATEST SATURDAY COMIC PAGES

EDMONTON, ALBERTA, Oct. 3, 1936.

OUR BOARDING HOUSE

"The

most thought-provoking column appearing in any paper in Canada today appears daily in The Edmonton Bulletin. The world in review; pithy comment on

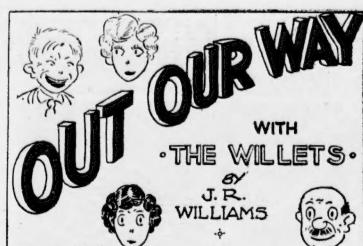

Passing

events; local, national and international topics looked at from an interesting angle. Look for it on page 4 every day. "The Passing"

Show"

FRECKLES AND HIS FRIENDS

"Out

on the open range with the real "drawn from the woods" buckaroos. In the machine shop among the boys with the overalls and lunch pails. Just a cross section of life taken from

Our

daily lives. A human interest picture of the family at home. It might be your house or mine. You'll get the subtle humor in every cartoon of The Bulletin's daily feature, "Out Our

Way"
